CONTENTS

Volume 14, Issue Nos 1–18

HYDROLOGICAL PROCESSES

VOLUME 14, ISSUE No. 1 *January 2000*

Satellite-derived Digital Elevation Model Accuracy: Hydrogeomorphological Analysis Requirements: T. A. Endreny, E. F. Wood and D. P. Lettenmaier 1

Budget and Sources of Suspended Sediment Transported in the St. Lawrence River, Canada: B. Rondeau, D. Cossa, P. Gagnon and L. Bilodeau 21

Measuring Drop Size Distribution and Kinetic Energy of Rainfall using a Force Transducer: A. W. Jayawardena and Rezaur, R. B. 37

A Practical Method for Analysis of River Waves and for Kinematic Wave Routing in Natural Channel Networks: T. Moramarco and V. P. Singh 51

A Data-based Mechanistic Modelling (DBM) Approach to Understanding Dynamic Sediment Transmission through Wyresdale Park Reservoir, Lancashire, UK: L. E. Price, P. Goodwill, P. C. Young and J. S. Rowan 63

The Exemplar-aided Constructor of Hyper-rectangles Learning Algorithm for Stream Flow Estimation: F.-J. Chang and H.-F. Lin 79

Use of the Recession Characteristics of Snowmelt Hydrographs in the Assessment of Snow Water Storage in a Basin: P. Singh, H. Huebl and H. W. Weinmeister 91

Potentials and Limitations of Modelling Vertical Distributions of Root Water Uptake of an Austrian Pine Forest on a Sandy Soil: P. A. D. Musters, W. Bouten and J. M. Verstraten 103

Using Synthetic Flow Duration Curves for Rainfall—Runoff Model Calibration at Ungauged Sites: P.-S. Yu and T.-C. Yang 117

The Effect of Beech Stemflow on Spatial Patterns of Soil Solution Chemistry and Seepage Fluxes in a Mixed Beech/Oak Stand: S.-C. Chang and E. Matzner 135

The Water Balance of the Dead Sea: An Integrated Approach: R. A. Al-Weshah . . 145

Influence of Aspect and Slope Gradient on Hydraulic Conductivity Measured by Tension Infiltrometer: M. Casanova, I. Messing and A. Joel 155

Scale Effects on Hortonian Overland Flow and Rainfall—Runoff Dynamics in a West African Catena Landscape: N. C. van de Giesen, T. J. Stomph and N. de Ridder . 165

VOLUME 14, ISSUE No. 2 *15 February 2000*

Satellite-derived Digital Elevation Model Accuracy: Hydrological Modelling Requirements: T. A. Endreny, E. F. Wood and D. P. Lettenmaier 177

Modelling Hydrological Conditions in the Maritime Forest Region of South-western Nova Scotia: S. Yanni, K. Keys, F.-R. Meng, X. Yin, T. Clair and P. A. Arp . . 195

Hillslope Hydrology in Tropical Rainforest Steeplands in Brunei: A. P. Dykes and J. B. Thornes 215

Regional-scale Investigation of the Spatial Distribution and Origin of Soluble Salts in Central North Queensland: E. N. Bui and C. J. Moran 237

Modelling Forest Transpiration from Different Perspectives: S. C. Dekker, W. Bouten and J. M. Verstraten 251

Adsorption of Cadmium on Riverine Sediments: Quantitative Treatment of the Large Particles: C. K. Jain and I. Ali 261

Rain Properties Controlling Soil Splash Detachment: C. Salles and J. Poesen . . . 271

Interrelations between Si and P Biogeochemical Cycles—A New Approach to the Solution of the Eutrophication Problem: V. Krivtsov, E. Bellinger, D. Sigee and J. Corliss . . 283

Aquifer Modelling of the Ganga-Mahawa Sub-basin, a Part of the Central Ganga Basin, Uttar Pradesh, India: M. E. H. Ala Eldin, M. Sami Ahmed, V. V. S. Gurunadha Rao and R. L. Dhar 297

An Approach to Hydrograph Classification: D. M. Hannah, B. P. G. Smith, A. M. Gurnell and G. R. McGregor 317

Evaluation and Generalization of Radiation-based Methods for Calculating Evaporation: C. Y. Xu and V. P. Singh 339

A New Method for Evaluating Errors in High Frequency ADV Measurements: S. J. McLelland and A. P. Nicholas 351

VOLUME 14, ISSUE No. 3 *28 February 2000*

Preface: A. Kondoh 368

Stormflow Generation in Steep Forested Headwaters: A Linked Hydrogeomorphic Paradigm: R. C. Sidle, Y. Tsuboyama, S. Noguchi, I. Hosoda, M. Fujieda and T. Shimizu 369

A Zero-order Basin - its Contribution to Catchment Hydrology and Internal Hydrological Processes: Y. Tsuboyama, R. C. Sidle, S. Noguchi, S. Murakami and T. Shimizu . . 387

Comparison of Different Distributed Hydrological Models for Characterization of Catchment Spatial Variability: D. Yang, S. Herath and K. Musiake 403

Application of Surface—Subsurface Flow Coupled with Numerical Simulator to Runoff Analysis in an Actual Field: K. Itoh, H. Tosaka, K. Nakajima and M. Nakagawa . 417

Advance Flood Forecasting for Flood Stricken Bangladesh with a Fuzzy Reasoning Method: S. Liong, W. Lim, T. Kojiri and T. Hori 431

Fully Coupled Formulation of Surface Flow with 2-phase Subsurface Flow for Hydrological Simulation: H. Tosaka, K. Itoh and T. Furuno 449

The Effects of Heterogeneity Within an Area on Areally Averaged Evaporation: T. Nakaegawa, T. Oki and T. Musiake 465

Real-time Stage and Discharge Estimation by a Stochastic–Dynamic Flood Routing Model: M. Shiiba, X. Laurenson and Y. Tachikawa 481

Flood Inundation Simulation in a River Basin Using a Physically Based Distributed Hydrologic Model: D. Dutta, S. Herath and K. Musiake 497

Scaling Hydraulic Properties of Forest Soils: Hendrayanto, K. Kosugi and T. Mizuyama 521

Stable Isotope Studies of Precipitation and River Water in the Lake Biwa Basin, Japan: M. Taniguchi, T. Nakayama, N. Tase and J. Shimada 539

Dynamic Behaviors of Anoxic Saline Water in Lake Abashiri, Hokkaido, Japan: K. Chikita 557

River Network Solution for a Distributed Hydrological Model and Applications: R. Jha, S. Herath and K. Musiake 575

Forecasting the Changes in Lake Water Quality in Response to Climate Changes, using Past Relationships Between Meteorological Conditions and Water Quality: T. Fukushima, N. Ozaki, H. Kaminishi, H. Harasawa and K. Matsushige . . . 593

Flood Hazard Assessment in Bangladesh using NOAA AVHRR Data with Geographical Information System: M. M. Islam and K. Sado 605

A Performance Evaluation Method of Monitoring Systems for Inner-basin Drainage Under Imperfect Observation: N. Tanaka and H. Tatano 621

A Macro-scale Hydrological Analysis of the Lena River Basin: X. Ma, Y. Fukushima, T. Hiyama, T. Hashimoto and T. Ohata 639

VOLUME 14, ISSUE No. 4 *March 2000*

Fractal Dimensions of Individual Flocs and Floc Populations in Streams: D. H. de Boer, M. Stone and L. M. J. Lévesque 653

Measuring Interception Loss and Canopy Storage in Dryland Vegetation: A Brief Review and Evaluation of Available Research Strategies: D. Dunkerley 669

Sedimentation in Arctic Proglacial Lakes: Mittivakkat Glacier, South-east Greenland: B. Hasholt, D. E. Walling and P. N. Owens 679

The Contribution of Old and New Water to a Storm Hydrograph Determined by Tracer Addition to a Whole Catchment: R. Collins, A. Jenkins and M. Harrow 701

Morphology, Structure, and Flow Phases in Soil Pipes Developing in Forested Hillslopes Underlain by a Quaternary Sand–Gravel Formation, Hokkaido, Northern Main Island in Japan: T. Terajima, T. Sakamoto and T. Shirai 713

Kinematic Wave Approximations to Hillslope Hydrological Processes in Tills: S. Beldring, L. Gottschalk, A. Rodhe and L. M. Tallaksen 727

Isotope Hydrology of the Allt a'Mharcaidh Catchment, Cairngorms, Scotland: Implications for Hydrological Pathways and Residence Times: C. Soulsby, R. Malcolm, R. Helliwell, R. C. Ferrier and A. Jenkins 747

Winter Rainfall Interception by Two Mature Open-grown Trees in Davis, California: Q. Xiao, E. G. McPherson, S. L. Ustin, M. E. Grismer and J. R. Simpson . . . 763

Modelling the Spatial Variation in Soil Moisture at the Landscape Scale: An Application to Five Areas of Ecological Interest in the UK: P. S. Naden, E. M. Blyth, P. Broadhurst, C. D. Watts and I. R. Wright 785

Estimation of the Effective Precipitation Recharge Coefficient in an Unconfined Aquifer using Stochastic Analysis: H. S. Gau and C. W. Liu 811

VOLUME 14, ISSUE No. 5 *15 April 2000*

Soil Macroporosity and Infiltration Characteristics of a Forest Podzol: J. M. Buttle and D. J. McDonald 831

Geochemistry of the Springfield Plateau Aquifer of the Ozark Plateaus Province in Arkansas, Kansas, Missouri and Oklahoma USA: J. C. Adamski 849

Effects of Land Cover Change on Streamflow in the Interior Columbia River Basin (USA and Canada): B. Matheussen, R. L. Kirschbaum, I. A. Goodman, G. M. O'Donnell and D. P. Lettenmaier 867

Uncertainty Assessment in the Prediction of Extreme Rainfall Events: An Example from the Central Spanish Pyrenees: J. M. García Ruiz, J. Arnáez, S. M. White, A. Lorente and S. Beguería 887

Evaluation of a Distributed Model for Urban Catchments using a 7-Year Continuous Data Series: F. Rodriguez, H. Andrieu and Y. Zech 899

Sensitivity Analysis of EUROSEM using Monte Carlo Simulation I: Hydrologic, Soil and Vegetation Parameters: A. Veihe and J. Quinton 915

Sensitivity Analysis of EUROSEM using Monte Carlo Simulation II: The Effect of Rills and Rock Fragments: A. Veihe, J. Quinton and J. Poesen 927

Evaluating the Spatial Distribution of Water Balance in a Small Watershed, Pennsylvania: Z. Yu, W. J. Gburek and F. W. Schwartz 941

The Use of Caesium-137 to Estimate Agricultural Erosion on Steep Slopes in a Tropical Watershed: G. N. Nagle, J. P. Lassoie, T. J. Fahey and S. C. McIntyre 957

Solutes in Overland Flow Following Fire in Eucalyptus and Pine Forests, Northern Portugal: A. D. Thomas, R. P. D. Walsh and R. A. Shakesby 971

VOLUME 14, ISSUE No. 6 *30 April 2000*

Differences in Topographic Characteristics Computed from 100- and 1000-Meter Resolution Digital Elevation Model Data: D. M. Wolock and G. J. McCabe . . . 987

Recovering the Release History of a Groundwater Contaminant Using a Non-linear Least-squares Method: S. Alapati and Z. J. Kabala 1003

Development and Application of a Spatially-distributed Arctic Hydrologic and Thermal Process Model (ARHYTHM): Z. Zhang, D. L. Kane and L. D. Hinzman . . . 1017

Exceptional Ablation Arising from Rainfall-induced Slushflows: Brewster Glacier, New Zealand: C. C. Smart, I. F. Owens, W. Lawson and A. L. Morris 1045

A Generalized Seasonal Model for Flow Duration Curve: H. K. Cigizoglu and M. Bayazit 1053

Drop Size Distribution and Kinetic Energy Load of Rainstorms in Hong Kong: A. W. Jayawardena and R. B. Rezaur 1069

Continuous Daily Hydrograph Simulation using Duration Curves of a Precipitation Index: V. Yu. Smakhtin and B. Masse 1083

Simulation of Field-scale Water Flow and Bromide Transport in a Cracked Clay Soil: J. C. van Dam 1101

Development of a Portable Field Rainfall Simulator for Use in Hillside Vineyard Runoff and Erosion Studies: M. C. Battany and M. E. Grismer 1119

First Approximations of Soil Moisture Retention Curves Using the Filter-paper Method: D. U. Ophori and B. Maharjan 1131

Solute Transport by Surface Runoff from Low-angle Slopes: Theory and Application: R. S. Walton, R. E. Volker, K. L. Bristow and K. R. J. Smettem 1139

VOLUME 14, ISSUE No. 7 *May 2000*

Major Element Chemistry of Sediments from the Darling-Barwon River and its Tributaries: Implications for Sediment and Phosphorus Sources: J. Olley and G. Caitcheon 1159

Seasonal Variability in Organic Substances in Surface and Cave Waters at Marengo Cave, Indiana: P. van Beynen, D. Ford and H. Schwarcz 1177

Hydrograph Separation in a Mountainous Catchment - Combining Hydrochemical and Isotopic Tracers: S. Hoeg, S. Uhlenbrook and C. Leibundgut 1199

The Timing of Runoff Response in Design Flood Analysis: A. Ashfaq and P. Webster . 1217

Estimation of Surface Runoff and Water-covered Area during Filling of Surface Microrelief Depressions: B. Hansen 1235

The Influence of Antecedent Rainfall on Sahelian Surface Evaporation: C. M. Taylor . 1245

Spatial Patterns and Temporal Stability of Soil Moisture Across a Range of Scales in a Semi-arid Environment: A. Gómez-Plaza, J. Alvarez-Rogel, J. Albaladejo and V. M. Castillo 1261

Drought Parameters in Relation to Truncation Levels: T. C. Sharma 1279

Rainfall Runoff and Erosion in Napa Valley Vineyards: Effects of Slope, Cover and Surface Roughness: M. C. Battany and M. E. Grismer 1289

Assessment of Evapotranspiration Models Applied to a Watershed of Canadian Prairies with Mixed Land-uses: G. F. Biftu and T. Y. Gan 1305

Plot and Small-watershed Scale Runoff from Two Reclaimed Surface-mined Watersheds in Alberta: T. E. Harms and D. S. Chanasyk 1327

VOLUME 14, ISSUE No. 8 *15 June 2000*

Preface: Isobalance: J. J. Gibson and T. D. Prowse 1339

Deuterium and Oxygen-18 Isotope Composition of Precipitation and Atmospheric Moisture: L. Araguás-Aráguas, K. Froehlich and K. Rozanski 1341

Atmospheric Water Balance - The Isotopic Perspective: J. R. Gat 1357

Evaluating the Water Balance of Inland Seas Using Isotopic Tracers: The Caspian Sea Experience: K. Froehlich 1371

Stable Water Isotopes in Atmospheric General Circulation Models: G. Hoffmann, J. Jouzel and V. Masson 1385

Using Stable Isotopes of Water in Evapotranspiration Studies: X.-F. Wang and D. Yakir 1407

From Accumulation to Discharge: Modification of Stable Isotopes during Glacial and Post-glacial Processes: W. Stichler and U. Schotterer 1423

Influence of Vegetation Structure on Isotope Content of Throughfall and Soil Water: C. Brodersen, S. Pohl, M. Lindenlaub, C. Leibundgut and K. v. Wilpert 1439

Isotopic ($\delta^{18}O$) Characteristics of Weekly Precipitation Collected Across the USA: An Initial Analysis with Application to Water Source Studies: J. M. Welker 1449

Effects of Evaporative Enrichment on the Stable Isotope Hydrology of a Central Florida (USA) River: P. Gremillion and M. Wanielista 1465

Application of Alternative Hydrograph Separation Models to Detect Changes in Flow Paths in a Watershed Undergoing Urban Development: P. Gremillion, A. Gonyeau and M. Wanielista 1485

Simple Analytical Models for Interpretation of Environmental Tracer Profiles in the Vadose Zone: B. Joshi and C. Maulé 1503

Clay Aquitards as Isotopic Archives of Holocene Palaeoclimate in the Northern Great Plains: Sensitivity Analysis: S. J. Birks, V. H. Remenda and T. W. D. Edwards . . 1523

VOLUME 14, ISSUE No. 9 *30 June 2000*

Special Issue: CGU - Hydrology Section Report on Canadian Advances, 1994–1999

Guest Editors: Jim Buttle, Gerry Jones, Philip Marsh and Ming-ko Woo

Preface
Recent Advances in Canadian Hydrology: J. Buttle, G. Jones, P. Marsh and M.-k. Woo 1537

Research Developments in the Hydrological Sciences in Canada (1995–1998): Surface Water—Quantity, Quality and Ecology: O. Slaymaker 1539

Advances in Canadian Forest Hydrology, 1995–1998: J. M. Buttle, I. F. Creed and J. W. Pomeroy 1551

Advances in Canadian Wetland Hydrology and Biochemistry: J. S. Price and J. M. Waddington 1579

Snow, Frozen Soils and Permafrost Hydrology in Canada, 1995–1998: M.-k. Woo, P. Marsh and J. Pomeroy 1591

Advances in River Ice Hydrology: S. Beltaos 1613

Progress in Glacier Hydrology: a Canadian Perspective: D. Scott Munro 1627

A Review of Canadian Remote Sensing Applications in Hydrology, 1995–1999: A. Pietroniro and R. Leconte 1641

Progress in Hydrological Research in the Mackenzie GEWEX Study: W. R. Rouse . . 1667

Recent (1995–1998) Canadian Research on Contemporary Processes of River Erosion and Sedimentation, and River Mechanics: P. Ashmore, F. M. Conly, D. deBoer, Y. Martin, E. Petticrew and A. Roy 1687

VOLUME 14, ISSUE No. 10 *July 2000*

Modelling Water Fluxes for the Analysis of Diffuse Pollution at the River Basin Scale: M. de Wit, C. Meinardi, F. Wendland and R. Kunkel 1707

A Model for Daily Flows of Intermittent Streams: H. Aksoy and M. Bayazit . . . 1725

Are Temporal Variations in the Nitrate Content of UK Upland Freshwaters Linked to the North Atlantic Oscillation?: D. T. Monteith, C. D. Evans and B. Reynolds . . . 1745

Throughflow Variability on a Forested Hillslope Underlain by Compacted Glacial Till: D. G. Hutchinson and R. D. Moore 1751

Hydrochemistry of Meltwaters Draining a Polythermal-based, High-arctic Glacier, South Svalbard: II. Winter and Early Spring: J. L. Wadham, M. Tranter and J. A. Dowdeswell 1767

Intra- and Interannual Export of Nitrogen and Phosphorus in the Subtropical Richmond River Catchment, Australia: L. McKee, B. Eyre and S. Hossain 1787

Spatial Patterns of Soil Water Balance on Intensively Cultivated Hillslopes in a Semi-arid Environment: The Impact of Rock Fragments and Soil Thickness: B. van Wesemael, M. Mulligan and J. Poesen 1811

Stone Cover and Slope Factors Influencing Hillside Surface Runoff and Infiltration: Laboratory Investigation: J.-S. Jean, K.-F. Ai, K. Shih and C.-C. Hung 1829

A Monthly Stream Flow Model for Estimating the Potential Changes of River Runoff on the Projected Global Warming: Z. Wanchang, K. Ogawa, Y. Besheng and Y. Yamaguchi 1851

An Investigation of Snowmelt Runoff on Experimental Plots in Lulea, Sweden: G. Westerstrom and V. Singh 1869

A Large Weighing Lysimeter for Evapotranspiration and Soil-water-groundwater Exchange Studies: J. Yang, B. Li and S. Liu 1887

VOLUME 14, ISSUE No. 11/12 *15–30 August 2000*

Special Issue: Geocomputation in Hydrology and Geomorphology

Guest Editors: S. M. Brooks and R. A. McDonnell

Research Advances in Geocomputation for Hydrological and Geomorphological Modelling Towards the Twenty-First Century: S. M. Brooks and R. A. McDonnell . 1899

I DIGITAL REPRESENTATION OF THE EARTH'S SURFACE

Assessing the Quality for Hydrological Applications of Digital Elevation Models Derived from Contours: S. Wise 1909

The Delineation of Drainage Basins on the Greenland Ice Sheet for Mass Balance Analyses using a Combined Modelling and Geographical Information System Approach: R. J. Hardy, J. L. Bamber and S. Orford 1931

A Physically Based Cathchment Partitioning Method for Hydrological Analysis: G. Menduni and V. Riboni 1943

II PHYSICAL PROCESS MODELLING

Scales and Similarities in Runoff Processes with Respect to Geomorphometry: J. Schmidt, K. Hennrich and R. Dikau 1963

Physically Based River Basin Modelling Within a GIS: The Lisflood Model: A. P. J. De Roo, C. G. Wesseling and W. P. A. Van Deursen 1981

Integrated Modelling of the Soil-Water-Atmosphere-Plant System using the Model SWAP 2.0. An Overview of Theory and an Application: J. G. Kroes, J. G. Wesseling and J. C. Van Dam 1993

Design and Application of an Automated Non-Circular Slip Surface Search within a Combined Hydrology and Stability Model (CHASM): P. L. Wilkinson, S. M. Brooks and M. G. Anderson 2003

Uncertainty in Groundwater Flow and Transport Modelling—A Stochastic Analysis of Well-Protection Zones: H. S. Wheater, J. A. Tompkins, M. van Leeuwen and A. P. Butler 2019

Modelling Geomorphic Response to Environmental Change in an Upland Catchment: T. J. Coulthard, M. J. Kirkby and M. G. Macklin 2031

Secondary Circulation Cells in River Channel Confluences: Measurement Artefacts or Coherent Flow Structures?: S. N. Lane, K. F. Bradbrook, K. S. Richards, P. M. Biron and A. G. Roy 2047

Development and Testing of a Subgrid Scale Model for Moving Boundary Hydrodynamic Problems in Shallow Water: P. D. Bates 2073

Hydrodynamic Modelling as a Basis for Explaining Estuarine Environmental Dynamics: Some Computational and Methodological Issues: J. R. French and N. J. Clifford . . 2089

III EXPLORATORY DATA ANALYSIS

Integration of High-Resolution Topographic Data with Floodplain Flow Models: K. Marks and P. Bates 2109

Hierarchical Modelling of the Environmental Impacts of River Impoundment Based on a GIS: R. A. McDonnell 2123

A Variable Resolution, Geocomputational Approach to the Analysis of Point Patterns: A. J. Brimicombe and P. H. Y. Tsui 2143

Comparing Neural Network and Autoregressive Moving Average Techniques for the Provision of Continuous River Flow Forecasts in Two Contrasting Catchments: R. J. Abrahart and L. See 2157

Emergence and Erosion: A Model for Rill Initiation and Development: D. T. Favis-Mortlock, J. Boardman, A. J. Parsons and B. Lascelles 2173

VOLUME 14, ISSUE No. 13 *September 2000*

Special Issue: The TELEMAC Modelling System

Guest Editors: J.-M. Hervouet and P. Bates

The TELEMAC Modelling System Special Issue: J.-M. Hervouet and P. Bates . . . 2207

TELEMAC Modelling System: An Overview: J.-M. Hervouet 2209

I DEVELOPMENT

A High Resolution 2-D Dam-Break Model using Parallelization: J.-M. Hervouet . . 2211

Three Dimensional Modelling of Cohesive Sediment Transport in the Loire Estuary: C. Le Normant 2231

Development of One, Two and Three-Dimensional Finite Element Groundwater Models within a Generalized Object-Oriented Framework: A. Desitter, P. D. Bates, M. G. Anderson and J.-M. Hervouet 2245

Chemtrap: a Hydrogeochemical Model for Reactive Transport in Porous Media: P. L. Lucille, A. Burnol and Ph. Ollar 2261

Three-Dimensional Water Quality Modelling with TELEMAC-3D: R. Kopmann and M. Markofsky 2279

II APPLICATION

Application of TELEMAC-2D in a Narrow Estuarine Tributary: A. Malcherek . . . 2293

A 3-D Hydrodynamic Model of a River Flow in a Delta Region: S. Corti and V. Pennati 2301

III ENVIRONMENTAL DESIGN

Optimum Design of Large Flood Relief Culverts under the A89 Motorway in the Dordogne-Isle Confluence Plain: P. Sauvaget, E. David, D. Demmerle and P. Lefort . 2311

Restoring Flow Capacity in the Loire River Bed: P. Belleudy 2331

The Effects Induced by a New Embankment at the Confluence between Two Rivers: TELEMAC Results Compared with a Physical Model: G. Asaro and E. Paris . . 2345

Application of the TELEMAC System to the Simulation of Dumping of Excavated Material in the River Rhine: H. Weilbeer and W. Zielke 2355

VOLUME 14, ISSUE No. 14 *15 October 2000*

Announcing the Launch of HPToday: M. G. Anderson 2365

Stormflow Generation and Flowpath Characteristics in an Amazonian Rainforest Catchment: H. Elsenbeer and R. A. Vertessy 2367

The Maude Weir Sediments. 1. Desorption and Sorption of Phosphorus, and Related Changes in Mineral Magnetic Properties after Desorption: R. H. Crockford and I. R. Willett 2383

The Maude Weir Sediments. 2. Effect of Weir Storage on Magnetic Properties and Associated Chemistry: R. H. Crockford and I. R. Willett 2393

Modelling Canadian Prairie Wetland Hydrology using a Semi-Distributed Streamflow Model: M. Su, W. J. Stolte and G. van der Kamp 2405

Interpretation of Groundwater Level Monitoring Results in Karst Aquifers: Examples from the Dinaric Karst: O. Bonacci and T. Roje-Bonacci 2423

Spatial and Temporal Variations in Surface Water Nitrate Concentrations in a Mixed Land Use Catchment Under Humid Temperate Climatic Conditions: Y. Van Herpe and P. A. Troch 2439

Effects of Experimental Uncertainty on the Calculation of Hillslope Flow Paths: M. D. Sherlock, N. A. Chappell and J. J. McDonnell 2457

Application of Tank, NAM, ARMA and Neural Network Models to Flood Forecasting: T. Tingsanchali and M. R. Gautam 2473

Solute Movement in Drained Fen Peat: A Field Tracer Study in a Somerset (UK) Wetland: A. J. Baird and S. W. Gaffney 2489

Grid-Resolution Effects on a Model for Integrating Urban and Rural Areas: C. Valeo and S. M. A. Moin 2505

A Comparison of Groundwater Recharge Estimation Methods in a Semi-Arid, Coastal Avocado and Citrus Orchard (Ventura County, California): M. E. Grismer, S. Bachman and T. Powers 2527

Hydraulic Modelling of Subglacial Tunnel Channels, South-East Alberta, Canada: C. L. Beaney and F. E. Hicks 2545

Turbidity and Suspended Sediment Dynamics in Small Catchments in the Nepal Middle Hills: J. Brasington and K. Richards 2559

The Bivariate Lognormal Distribution to Model a Multivariate Flood Episode: S. Yue . 2575

Time-Integrated Sampling of Fluvial Suspended Sediment: A Simple Methodology for Small Catchments: J. M. Phillips, M. A. Russell and D. E. Walling 2589

HPToday 2603

VOLUME 14, ISSUE No. 15 *30 October 2000*

Special Issue: Canadian Geophysical Union—Hydrology Section

Guest Editor: P. Marsh

Preface: Canadian Geophysical Union Hydrology Section Special Issue: P. Marsh . . 2629

High Resolution Measurement of Bedload Transport: J. Tunnicliffe, A. Gottesfeld and M. Mohamed 2631

Glacial Hydrological System Characterization using Ground-Penetrating Radar: B. J. Moorman and F. A. Michel 2645

Multiple-Scale Modelling of Forest Snow Sublimation: Initial Findings: J. Parviainen and J. W. Pomeroy 2669

Effect of Covariance between Ablation and Snow Water Equivalent on Depletion of Snow-Covered Area in a Forest: D. A. Faria, J. W. Pomeroy and R. L. H. Essery . 2683

Modelling Groundwater-Surface/Water Mixing in a Headwater Wetland: Implications for Hydrograph Separation: P. Brassard, J. M. Waddington, A. R. Hill and N. T. Roulet 2697

Runoff Generation in a Hypermaritime Bog-Forest Upland: J. J. Gibson, J. S. Price, R. Aravena, D. F. Fitzgerald and D. Maloney 2711

Regional Flood Frequency Analysis using GIS, L-Moment and Geostatistical Methods: J.-L. Daviau, K. Adamowski and G. G. Patry 2731

A Recurrent Neural Networks Approach using Indices of Low-Frequency Climatic Variability to Forecast Regional Annual Runoff: P. Coulibaly, F. Anctil, P. Rasmussen and B. Bobée 2755

The Effects of the Spatial Variability of Soil Infiltration Capacity in Distributed Flood Modelling: A. Brath and A. Montanari 2779

HPToday 2795

VOLUME 14, ISSUE No. 16/17 *November–15 December 2000*

Special Issue: Linking Hydrology and Ecology

Guest Editors: A. M. Gurnell, C. R. Hupp and S. V. Gregory

Preface: Linking Hydrology and Ecology: A. M. Gurnell, C. R. Hupp and S. V. Gregory 2813

The Disparity between Extreme Rainfall Events and Rare Floods—with Emphasis on the Semi-Arid American West: W. R. Osterkamp and J. M. Friedman 2817

Classification of River Regimes: A Context for Hydroecology: N. M. Harris, A. M. Gurnell, D. M. Hannah and G. E. Petts 2831

Disturbance Regimes of Stream and Riparian Systems—A Disturbance-Cascade Perspective: F. Nakamura, F. J. Swanson and S. M. Wondzell 2849

An Extension of the Flood Pulse Concept: K. Tockner, F. Malard and J. V. Ward . . 2861

The Influence of Physical and Physiological Characteristics of Vegetation on their Hydrological Response: J. Roberts 2885

Partitioning of Rainfall into Throughfall, Stemflow and Interception: Effect of Forest Type, Ground Cover and Climate: R. H. Crockford and D. P. Richardson . . . 2903

Plot-Scale Studies of Vegetation, Overland Flow and Erosion Interactions: Case Studies from Arizona and New Mexico: J. Wainwright, A. J. Parsons and A. D. Abrahams . 2921

Saturated and Unsaturated Flow Dynamics in a Floodplain Wetland: C. Bradley and D. J. Gilvear 2945

Impacts of Riparian Vegetation on Hydrological Processes: E. Tabacchi, L. Lambs, H. Guilloy, A.-M. Planty-Tabacchi, E. Muller and H. Décamps 2959

Hydrological and Geomorphological Impacts on Riparian Plant Communities: J. Bendix and C. R. Hupp 2977

Hydrology, Geomorphology, and Vegetation of Coastal Plain Rivers in the South-Eastern USA: C. R. Hupp 2991

Channel Instability as a Control on Silting Dynamics and Vegetation Patterns within Perifluvial Aquatic Zones: H. Piegay, G. Bornette, A. Citterio, E. Herouin, B. Moulin and C. Statiotis 3011

Riparian Forest Disturbances by a Mountain Flood—the Influence of Floated Wood: S. L. Johnson, F. J. Swanson, G. E. Grant and S. M. Wondzell 3031

Tree Recruitment and Survival in Rivers: Influence of Hydrological Processes: W. Carter Johnson 3051

The Response of Male and Female Black Poplar (*Populus nigra* L. subspecies *betulifolia* (Pursh) W. Wettst.) Cuttings to Different Water Table Depths and Sediment Types: Implications for Flow Management and River Corridor Biodiversity: F. M. R. Hughes, N. Barsoum, K. S. Richards, M. Winfield and A. Hayes 3075

The Role of Vegetation in the Formation of Anabranching Channels in an Ephemeral River, Northern Plains, Arid Central Australia: S. Tooth and G. C. Nanson . . . 3099

Hydroecology of River Plankton: the Role of Variability in Channel Flow: C. S. Reynolds 3119

Flow Variations and Macroinvertebrate Community Responses in a Small Groundwater-Dominated Stream in South-East England: P. J. Wood, M. D. Agnew and G. E. Petts 3133

Role of Lake Regulation on Glacier-Fed Rivers in Enhancing Salmon Productivity: the Cook Inlet Watershed, South-Central Alaska, USA: J. M. Dorava and A. M. Milner 3149

Annual Changes in Summer Patterns of Mesohabitat Distribution and Associated Macroinvertebrate Assemblages: P. D. Armitage and C. E. Cannan 3161

HPToday 3181

VOLUME 14, ISSUE No. 18 *30 December 2000*

Special Issue: Eastern Snow Conference

Guest Editors: Janet P. Hardy and John Pomeroy

Preface: J. P. Hardy and J. Pomeroy v

Announcement and Call for Papers 3205

Ice Layer and Surface Crust Permeability in a Seasonal Snow Pack: M. R. Albert and F. E. Perron, Jr. 3207

The Impact of Sampling Density on Glacier Mass Balance Determination: M. S. Pelto . 3215

Incorporating Effects of Forest Litter in a Snow Process Model: J. P. Hardy, R. Melloh, P. Robinson and R. Jordan 3227

Forest Cover Algorithms for Estimating Meteorological Forcing in a Numerical Snow Model: R. Å. Hellström 3239

An Approach to Spatially Distributed Snow Modelling of the Sacramento and San Joaquin Basins, California: S. F. Daly, R. Davis, E. Ochs and T. Pangburn . . . 3257

Winter Season Variability in North American Prairie SWE Distribution and Atmospheric Circulation: C. Derksen, E. LeDrew, A. Walker and B. Goodison 3273

Effects of Asynchronous Snowmelt on Flushing of Dissolved Organic Carbon: A Mixing Model Approach: E. W. Boyer, G. M. Hornberger, K. E. Bencala and D. M. McKnight 3291

The Importance of Light and Photoperiod in Sexual Reproduction and Geographical Distribution in the Green Snow Alga, *Chloromonas* sp.-D (Chlorophyceae, Volvocales): R. W. Hoham, A. M. Marcarelli, H. S. Rogers, M. D. Ragan, B. M. Petre, M. D. Ungerer, J. M. Barnes and D. O. Francis 3309
